PORTFOLIO

# Hello!

My name is **Abel Daniel**, and I am a graphic designer. For over five years, I've been diving deep into the world of graphic design. I specialize in working with brands to create logos, brand identities, and visual branding. Whether I'm collaborating with a team or working on my own, I always aim to blend consistency with a burst of creativity.

I have a special passion for exploring Ethiopian cultural patterns and the Ethiopic typeface, and I have developed many professional Ethiopic fonts
